### THE BUYER BENEFITS

One of the nation's biggest soft drink manufacturers several years ago got a new manager. "Why all this money spent for advertising?" he asked. "Every man, woman and child in America knows the name of our product. It's sold in every store where soft drinks are sold. And everyone knows it's five cents a bottle."

The first month he saved thousands of dollars that had formerly gone into advertising. And there was no loss in sales. "See what I mean?"

The second month it was the same, and the third! Then some of the chart-gazers noted a downturn here and there. "The sales of every business fluctuate," he shouted. But the next month the downturn was more apparent, and still more apparent the next.

To make a long story short, when it was finally decided to resume advertising, the company had to spend more money to regain lost ground than it saved during the period without advertising.

Advertising, like everything else, has become specialized. It's no longer a hit-or-miss affair. No longer is advertising to be used only for bargain sales. Consistent advertising pays off most of the long run.

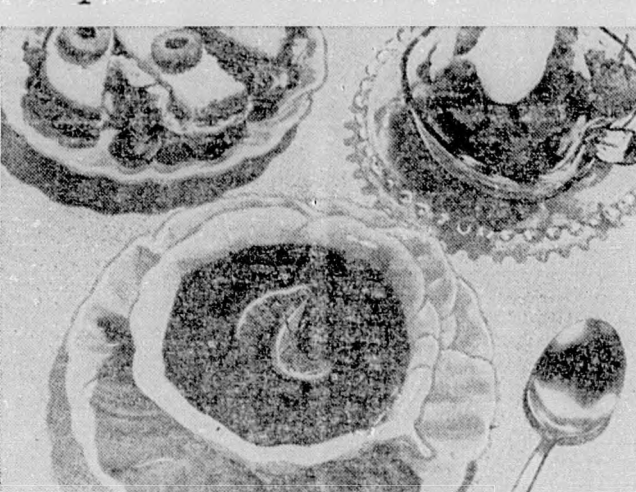

A skilled ad man is the first to disagree with the saying that "You have to advertise." But every skilled ad man knows that consistent well-planned advertising will produce more business than would come without it, and that the buyer benefits as much as the seller.

There are definite rules about how to use it, and the first rule is to budget the advertising the same as to budget the rent, payroll, gas, lights and water. There are percentages to be followed depending upon the type of business.

If engaged in a lawsuit, there is no law that says you must hire a lawyer. But you will get along better with a lawyer than without. So it is with advertising.

The merchant and the customer each benefits, the same as does both a lawyer and a client.

### Soup 'n' Sandwich For Summer!

"S" is for Soup . . . and Sandwich, too! What could be better on a blazing summer day? Easy to prepare . . . light and nutritious to eat.  
Take a can of condensed tomato soup . . . simply add milk or water and heat. For a refreshing touch, garnish with a slice of lime. Or perhaps, you might serve a cold soup . . . especially appealing on a hot day. The combination of tomato and celery is an exceptionally good flavor blend and a cool pink color. Either way . . . not too cold . . . soup gives a little bit of weather-witted appeal.  
For the sandwiches . . . make them varied and appealing. Use an assortment of meats and fillings. Celery lettuce adds much to a good sandwich. Then for dessert . . . surprise the folks with another "S" . . . strawberry shortcake.

#### "TRUTH IS ALWAYS STRANGER THAN FICTION"

Stories have been written about magic potions that could cure disease. But no fiction is as true as the present fact that five or ten dollars worth of antibiotic capsules can now, almost over-night, cure a pneumonia.

The truth is almost unbelievable. Vitamins and Hormones are the fabled "Elixir of Life." They help add years to your living. The greatest miracle of all is that despite the tremendous research expense needed to discover and perfect new medicines, more than half the prescriptions we compound still cost less than \$3, which is about the average charge for all prescriptions.

"SPUTNIK", "IN ORBIT", "THRUST", AND "COUNTDOWN" ARE COMMON TERMS IN EVERYBODY'S VOCABULARY IN TODAY'S SPACE AGE. THE NAVY'S "VANGUARD" MISSILE, REFERRED TO BY ROCKETEERS AS "SOPHISTICATED", CARRIED AN EARTH SATELLITE INTO ORBIT EARLY IN 1958. ### —SOIL NEWS—

By T. C. Self

From many sources, including the President, we hear that 1960 will be one of the most prosperous years in the history of our country. There

are exceptions and these will affect us in Coffee County. Farm experts state that farm income is expected to be down some 7 per cent from last year. In fact our farm income has declined for several years. We have a very through conservation practices and better farm

management, been able to keep our farming operation on a paying basis. It appears we may soon be faced with a critical problem if present trends continue. Farm operations as presently conducted may not produce a sufficient farm income.

You may wonder how conservation of soil and other natural resources enter the picture. Higher yields at a lower cost is something that we must strive for. This means keeping only our best and most level land in row crops, maintaining a good set of terraces and waterways on the land, rotating crops and rotating row crops with land that has been in row crops for several years. Tests have shown that yields increase from 50 to 100 percent on land following grass.

Planting of bahia, coastal or other approved grasses on eroded areas will provide additional income from livestock.

R. D. Donaldson of Elba is planning an additional pasture this year. He said he has about equal land in pasture and row crops. His income this year from the livestock will exceed that of the row crops.

Our forests are another source of income to farm families. Proper thinning and

America is a land of bells! Wedding bells, door bells, dinner bells, school bells, sleigh bells . . . all speak of a country where Freedom from tyranny exists.

Radio chimes keynote freedom of speech as commentators broadcast the news. Typewriter bells ring out freedom of the press. And church bells, whether they be the musical chimes from a cathedral's spire, or the ding dong from the steeple of a village chapel, typify freedom of religion.

### Lela Ann Sawyer Was Entertained January 1

At ten in the morning, Miss Lela Ann Sawyer was entertained by Miss Tula Dismukes and Mrs. Charles Hayes III at the home of the former on January 1.

The mantel was attractively decorated with pink candles in cut glass holders flanking pink vases. And the dining room table was lace covered over a green petticoat.

Lela Ann looked lovely in a skirt and sweater set of blue. She received a gift of crystal from the hostesses and the 18 young ladies present enjoyed the pleasure of each other's company and conversation.

CHAPTER 34  
"HEY SAID. They smoked  
the river to look at ponies.  
Beaver Tails, scared, nimbly  
lighter in color even than the  
average Snake, was rich in ponies.  
He could spare twenty-five. Some  
of his close friends might trade  
forty more altogether.  
That would do it. Mordecai  
Price figured he didn't have  
the ponies yet. Trouble was,  
the Snakes were on their way  
to rendezvous, and it was so prob-  
able of theirs that the rocky  
Mountain Fur Co. pack train was  
busted down.  
They stood looking at the po-  
nies. Beaver Tails nudged along  
them. Mordecai increased his of-  
fer of goods at the pack train  
a little.  
Thinking more of alcohol than  
of the Snake ways, when Mor-  
decai had said might be available.  
Iron Hawk said, "I will go with  
Big Buffalo to trade ponies." He  
had only five.  
They waited the Sweetwater  
and sat down to smoke it over  
some more. It was up to Beaver  
Tails. His friends would go along  
with him, either way he decided.  
Once more Mordecai spoke of the  
great friendship of the Snakes  
and the men of the Rocky Moun-  
tain Fur Co. He went back to  
Lewis and Clark and made them  
Rocky Mountain Co. men too.  
"All that Big Buffalo says is  
true," Beaver Tails agreed. He  
looked toward the Windy Moun-  
tains, stark and clear in the  
early light. He was sure that a  
small bunch of Blackfeet the  
Snakes had flushed out of the  
buffalo country had hidden there.  
He thought he knew about where  
he was not against killing Snakes  
but he preferred Blackfeet. If  
he went to trade ponies, the  
Blackfeet would escape.  
It was a half-truth argument.  
Mordecai knew. Sometimes the  
Snake was sticking him. Then he  
saw Beaver Tails look at Rhoda.  
Beaver Tails took at Rhoda.  
The Snake announced, "Rhoda  
is a good one. She is a good one."  
Damp powder and no fire to  
dry it, for certain. Beaver Tails  
knew she was white, but it would  
make him a big man to have a  
white squaw along with his  
others. He was set on the point.  
Mordecai could tell. Blank re-  
fusal would insult him. Likely run  
the whole trade.

## TIGERS AGAIN RUNNER-UP IN SAC TOURNEY

The Elba Tigers must feel by this time that their fate is predetermined, as for the second year in a row they advanced to the finals of the South Alabama Conference Basketball Tourney only to be beaten by the champs. Last year, it was Andalusia, pulling it out of the fire in the last five seconds, 52-50. This year it was Troy, which beat the Tigers 42-36.

Troy led up to the third quarter in a close contest, but at that point, Carl Nelson's jump shot put the Tigers in front, 32-30. Their glory was short-lived, however, as they lost the lead moments later and never regained it. Carl Nelson led the Tiger scorers with 18 points. Ronald Giddens led the winners with 16.

Other scorers for Elba were Free 5, Jacobs 4, Young 8 and Locklar 3.

**Semifinal Win**  
The Tigers had to fight for their lives Saturday afternoon in order to take a semifinal win from the strong Troy team. The game was close all the way and only last minute strategy by Coach Bill Strickland saved the day.

It was this same team that beat the Tigers 48-47 in the Laverne Invitational Tournament during the Christmas holidays, and the Tigers were out for revenge. They got it, with Ronnie Young's 15 points paving the way. Free had 12, Jacobs 11 to aid the cause, followed by Chandler with 9, Nelson 7 and Locklar 6.

**All-Tourney**  
The All-Tournament team consisted of John Atkins, Opp; Ronald Giddens, Troy; Jim Sanford, Laverne; Jim Rose, Troy; Don McLeod, Opp; and Carl Nelson, Elba. The second team was Roland Jacobs, Elba; Mickey Andrews, Ozark; Kelly Curenton, Florida; Gray Elmore, Andalusia; Bobby Paschal, Enterprise; and Ronnie Young, Elba.

The Senate Small Business Committee is pleased that it has had a part in publishing this convenient tax guide and the committee is gratified that the guide has been so beneficial to many small businesses in recent years." **Mrs. America Gives Bonds at Christmas**

"Savings Bonds belong on the Christmas tree," says Mrs. Margaret Fries, of Iowa, chosen Mrs. America in competition with representatives of all the states. This year, Mrs. Fries, a dark-haired mother of four children puts her family first, as usual in her Christmas plans. "As long as I can remember, we have had Savings Bonds on the Christmas tree," she says, "and this year it will be even more fun to tie them there. Now Series E Bonds pay higher interest—3 1/2%—and they are better than ever, both to give and to receive."

## JINX CO TAKES LIFE OF WOMAN, 64

A 64-year old grandmother was killed almost instantly in an accident last week at the Elba "Jinx Corner" that injured three other people, one of them seriously.

The intersection of Simmons and Addison streets, where the accident occurred, was first called "the jinx corner" in The Elba Clipper Sept. 17, last year after a series of accidents there over a period of months.

**Instant Death**  
Just after noon of Wednesday, last week, an automobile going north collided with a truck going west with almost instant death to the driver of the car. She was Mrs. Decie Boutwell Spurlin, 64, of Elba. Injured were her two grandchildren riding with her: Cheryl Boutwell 5, and Donna Boutwell 3, both girls, and the driver of the city dump truck which their car collided was Junior Johnson 32, of Elba.

**Both Children Home**  
Cheryl suffered cuts and bruises and returned home from the hospital Monday, this week. Donna suffered a fractured skull, brain concussions, cuts and bruises, and returned home Tuesday. Johnson suffered internal injuries and is still in the hospital. Miraculously, neither of the three suffered broken bones.

Police Chief William Williamson, who headed an investigation with city police, said the city dump truck, driven by Johnson was going west when it was hit in the side by the automobile driven by Mrs. Spurlin. The traffic light at that intersection was working imperfectly and had been turned off, there being a stop sign at the Addison approach to Simmons street on both sides. City repairmen were on their way to make repairs when the accident occurred.

**Survivors**  
Mrs. Spurlin is survived by her husband, Lawson Spurlin; two daughters, Mrs. Ruby Hillson of Dothan and Mrs. Marilyn Boutwell of Elba; one son, Edward Spurlin of Elba; two sisters, Mrs. L. J. Revel of Brewton and Mrs. B. F. Jackson of Elba; three brothers, W. C. Boutwell of Opp, J. A. and N. W. Boutwell of Elba; and three grandchildren. These included the two with her in the accident and Elba, aged 1 year.

Funeral services were held Friday from the Wesleyan Baptist church with the Rev. Wesley Bowden officiating. Burial was in Evergreen.

## Demand Is Ahead Of Supply At Federated

The demand was greater than the supply in the Federated's January White Sale last Friday and Saturday, again proving that the customer and store both benefit from newspaper advertising.

For instance, the Federated advertised towels two for a dollar and anticipated a demand for 12 dozen. Instead, these were all sold the first day and the store found it could have sold four times as many. The story was similar for other items advertised in The Clipper last week.

## Red Cross Elects Officers For 1960

Other officers elected were: Shelby Morrow, vice chairman; Mrs. Martha Kate Martin, secretary; Mrs. Mary Alice Lee, treasurer; Drexel Cook, fund campaign chairman; Mrs. Dorothy Lindsey, assistant fund campaign chairman.

## March of Dimes Waged Here

Brunson With Poster Girl—

Jerry Brunson, chairman of the Coffee County March of Dimes, is seen here with two-year-old Mary Beth Pyron, daughter of Mr. and Mrs. James Thomas Pyron of Florence, Ala., who has been designated National Poster Girl this year. Mary Beth was born with an open spine and water on the brain and here is one of thousands whose treatment is made possible by the March of Dimes.

All proceeds from traffic tickets for over-parking and passing stop signs without stopping the people who support it. (A sample of the questionnaire is on this page.)

**Plane Flights**  
The March of Dimes will be at a rate of 1¢ per pound of the passenger's weight or \$1.00 per person, whichever the passenger chooses.

Founded in 1938 by Franklin D. Roosevelt, the National Foundation is the only voluntary health agency in America to have mastered the secret of a major disease. The discovery of the Salk vaccine was welcomed by an alarmed nation in 1955 and has proved an effective answer against the polio epidemic.

Since the fight against polio has been won, money from the March of Dimes is being used to support the fight against birth defects, arthritis and other conditions which are still to be stricken by polio due to failure to take advantage of the Salk vaccine.

**RIVER SURVEY REPORT MADE BY ELBA MEN**  
Four Elba members of the Choctawhatchee - Pen River Development Association went to Geneva Monday evening to hear a preliminary report on a feasibility study of the project made for the Florida Geological Survey by Abbott, Meritt and Company, Inc., Engineers of New York City and Jacksonville, Fla.

The report was made possible by an appropriation of \$25,000 by the Florida legislature for a study of the benefits from development of the river which flows from Alabama through Northwest Florida to the Gulf of Mexico.

Members attending from Elba were L. B. Murphree, E. D. Brazelton, Robert Mason and Thorne Lane, who were among 128 persons from all parts of the watershed.

The report was read before a group which included Hugh C. Conner, Jr., assistant chief of reports, U. S. Engineers, Mobile; Dr. C. O. Vernon, director of the Florida Geological Survey, Tallahassee; H. L. Rosenfield and E. W. Bassett, Jacksonville, which compiled the report, several pages long detailing the physical characteristics of the Choctawhatchee and Pen river valleys and the potential service to industries that would derive from deepening the rivers.

**MISSING MAN FOUND**  
Doc Holley, 70-year old Samson man missing since Saturday, was found early Tuesday in a barn hayloft about two miles from his home in physically "poor" condition.

**Elba A. C. of C. Hears Army Officer Speaks**  
Lt. Col. Roy H. Sheehan, who is second in command at Eglin Field, told the Elba Chamber of Commerce at a dinner meeting Tuesday evening that "when you start fooling around with missiles it is only about 30 minutes from here to Moscow—unfortunately, it is only about 30 minutes from Moscow to here."

The commanding officer described the various stages of plane and missile development and concluded by saying that in a missile war both sides would be destroyed. "Then why do we continue to develop missiles? Because no other nation is any more anxious to commit mass suicide than we are and we must let them know that if they destroy us, they will be destroyed too."

Dr. E. M. Warr, president, presided. Various reports were heard and the president commended Lamar Rainer, Jr., for efforts of members of his committee towards beautification of the Court House Square, and commended Flournoy Whitman for his efforts towards obtaining a shorter travel route between Elba and Fort Rucker.
